

ROOSEVELT AWARDED 6 CENTS

ALL WITNESSES AT ROOSEVELT LIBEL TRIAL DECLARE COLONEL HAS ALWAYS BEEN ABSTEMIOUS

BULLETIN.

(By Associated Press.)
MARQUETTE, Mich., May 31.—The jury returned a verdict this afternoon, awarding Roosevelt six cents damages.

BULLETIN.

MARQUETTE, Mich., May 31.—George Newett took the stand this afternoon and retraced the libel. He said he believed an injustice had been done Roosevelt and asked the judge to instruct the jury to return a nominal damage verdict.

MARQUETTE, May 31.—The examination of witnesses in the libel suit of Roosevelt against George A. Newett proceeded rapidly, and it is expected the direct evidence of the plaintiff would be completed today. The evidence today was similar to

that heretofore given, all testifying that Roosevelt was always very abstemious. Ellen Roosevelt, a cousin, Frank Tyre and James Sloan of the secret service, William Loeb, Jr., were among those who testified personally. Depositions of Albert Shaw, editor, George B. Cortelyou, former secretary of Roosevelt, and later in the cabinet; George H. Roosevelt, a second cousin, and Lawrence H. Graham, a newspaper man, were read. The cross examinations were brief. Loeb and the secret service operatives were questioned concerning Roosevelt's condition at the celebration of Joe Cannon's seventieth birthday anniversary, and denied that he acted in a manner that would create belief as indicated, that he was intoxicated, and said he drank only one glass of wine. Sloan said Roosevelt was near sighted and frequently took his arm while walking.

POSTMASTER GENERAL BURLESON IN REPORT DECLARES HITCHCOCK EMBARRASSED ADMINISTRATION

(By Associated Press.)

WASHINGTON, May 31.—Postmaster General Burleson's report of the special investigation of the fiscal affairs of the postal service was made public today and contains charges that former Postmaster General Hitchcock's administration did not become self supporting, but that the 1911 deficit was more than \$700,000. The report charges that an apparent surplus was obtained by unjustifiable methods of bookkeeping and the inefficiency of the moral

service was sacrificed to the ruthlessly enforced policy of false economy, so a showing of self maintenance could be made. The report charges that Hitchcock filled long standing vacancies, made postponed promotions and increased the rural mail routes and other fixed charges just before the Wilson administration in such a way as to "saddle the new administration with a greatly increased expense during the six months, if not years, to come."

WEALTHY YOUNG LOS ANGELES MAN HELD IN CONNECTION WITH SHOOTING OF HIS BRIDE-TO-BE

(By Associated Press.)

LOS ANGELES, May 31.—Fred Kolb, a wealthy young man arrested last night in connection with the shooting of Miss Irene Noble, his fiancée, said today the girl had shot herself during an attack of hysterics as a result of brooding over the condition of her mother whom the girl believed was addicted to liquor.

The girl's mother, Mrs. W. B. Guldend, and a brother, George Noble, told the detectives they believed Kolb's story but he will be held pending further investigation.

Kolb said he was talking to the girl on the subject of her mother, when she wrote a letter and cried she was going to kill herself. He grappled for the pistol which was discharged. The letter bore out the attempted suicide. It is thought the girl may recover. She is unable to talk.

ARMY EXHIBIT AT RENO SHOWS ANCIENT ARMS

WIDESPREAD ATTENTION IS CAUSED BY COLLECTION OF WAR TOOLS.

Hundreds of people each day stop to view the exhibit of Civil war accoutrements on display in the windows of G. A. R. headquarters in the I. O. O. F. building on West Second street, says the Journal.

There is a wealth of interest in the display to all those who are familiar with the history of this country.

In one of the windows is a cavalry saber, which was carried through the Civil war; a knapsack of the Spanish war; a Civil war pistol scabbard containing a Spanish war pistol; the first hold gun made in 1875; a model of the first breech loader, made in 1837, which is a flint lock made after the Ball pattern; an old muzzle loader said to be over 400 years old, and a blunderbuss that was used on small boats on the Connecticut river in the revolutionary war.

In another window are a musket of the Civil war, with percussion caps, made after the Springfield pattern; an improved 45-70 Springfield breech loader, and a cavalry uniform worn throughout the war of '61 to '65.

PIONEER MINER PASSES AWAY AT SAN FRANCISCO

JOHN GOULD, TAKEN TO COAST THREE WEEKS AGO, DIES THIS MORNING.

John Gould, better known as "John D.," a pioneer miner of Tonopah, died this morning at 7:30 o'clock in St. Mary's hospital, San Francisco. Gould was removed to the coast three weeks ago, having been a patient in the Miners hospital here suffering from pneumonia and lung trouble.

The funeral will be held in San Francisco tomorrow, the interment being in the Holy Cross cemetery. Gould was a member of the Tonopah Miners union and the funeral will be held under the auspices of this organization. The deceased was a native of Ireland and aged 36 years. His only surviving relative in the United States is an uncle, Tim Murphy, residing at Cripple Creek, Colo.

Gould first came to Tonopah nine years ago and had resided here almost continuously since that time. He was well and favorably known by the people of this camp.

RENO MERCHANTS ARE VICTIMS OF A NERVY JOKER

REVENGE IS PROMISED IF PERPETRATOR OF JOKES IS APPREHENDED.

Whether it is some wag with a self approved sense of humor, some person seeking to satisfy a personal grudge, or new arrivals who have not yet learned their own street number is not known, but the fact remains that wherever and however the responsibility lies it is causing havoc among the residents in the 600 block on South Virginia street and arousing the wrath of merchants, produce dealers, brewers, ice cream manufacturers, transfer men and taxicab drivers, says the Reno Gazette.

The trouble is this. For several days and nights certain residents on South Virginia street have been receiving orders of eats and drinks from some mysterious source. Some have been marked paid and some have not. Transfer wagons have called and taxicab drivers have insisted that they were asked to come.

Beginning with an unasked for order of a bag of bananas the joke has grown stronger. During the heavy rain of Tuesday night a dripping taxicab driver appeared and insisted that he had been sent for. He was sent away disappointed, wet and grumbling. The next day four transfer wagons appeared and the drivers were not in the best of humor when they left. The next to arrive was two kegs of beer. They were rolled unceremoniously on to the back porch while the neighbors looked on, shocked, and the "lady of the house" wrung her hands and declared she was ruined. Finally the unwelcome kegs of thirst destroyer were removed and the brewer's delivery man departed, talking naughty under his breath.

Then came a quantity of grain, which likewise was refused. The grain was followed by a telephone call from the ice cream factory asking when it was wished to have the five gallons of ice cream previously ordered delivered. Then followed an examination and cross examination, but little information bearing upon the perplexing mystery was developed.

The fact remains that if the outraged and enraged business men or deliverymen discover the perpetrator of the "joke" there probably will be one less vacant ward in the county hospital or one more newly made mound in the village cemetery.

HARVEY HARRIS DENIES REPORT HE JUMPED BOND

DECLARES HE CAN BE COMMUNICATED WITH IN SAN FRANCISCO, CAL.

Harvey E. Harris, former county clerk of Lander county and member of the last legislature, in a letter received today by the Bonanza declares that he did not jump his bond as was stated and leave the country to escape trial on a charge of misappropriation of public funds.

Harris is in San Francisco and writes: "I wish that you would deny the piece in your paper that I have jumped my bond, which is not so. Believing that you are endeavoring to be fair to all concerned I hope you will do this for me. Anyone wishing to communicate with me can do so by addressing me in care of general delivery, San Francisco. The total amount involved in my case was only \$306 instead of \$1800, and the money has been paid to the county. Thanking you in advance for this favor, I am,

HARVEY E. HARRIS."

J. T. O'CONNELL QUIETLY WEDDED AT LONG BEACH

CLAIMS AS HIS BRIDE SISTER OF TONOPAH RAILROAD AGENT.

Johnnie O'Connell, a member of the mercantile firm of T. O'Connell & Son, was married at Long Beach, Cal., Tuesday to Miss Elizabeth Morris, a resident of that city. The wedding was a quiet affair and was celebrated in the presence of a few intimate friends and the relatives of the bride. The couple are spending a few weeks in Los Angeles after which they will return to Tonopah to make their home.

Last summer when the bride was visiting with her brother, Bud Morris, of the Tonopah and Goldfield railroad, it was whispered that an engagement had resulted, but nothing definite could be learned. About two weeks ago he left on a visit to southern California but before departing made no mention of the wedding. The first word received by his relatives here was in the form of a telegram Tuesday in which he declared he was happy. A letter received Thursday bore the announcement that the wedding had been celebrated Tuesday and that the couple had departed for Los Angeles.

Have you a "stent" musical instrument in your home? Unless it's anchored there by sentiment, let a "for sale" ad in the Bonanza find a buyer for it.

C. O. D. CON. AT GOLDFIELD CUTS HIGH GRADE ORE

IMPORTANT DEVELOPMENT IS MADE ON DEEP LEVEL OF LEASED GROUND.

The ore that has been sought on the C. O. D. Consolidated at Goldfield at a depth of 300 feet was penetrated on Wednesday and apparently this constitutes a discovery of great importance. This is in ground under lease to and being operated by the Goldfield Mines Operating company, the representatives of which are the Charles S. Sprague company and the work is being conducted under the direction of J. K. Turner, a mining engineer of wide experience in this field.

On the 200 foot level the ore had been exposed in good quantity and at a point about 225 feet east of the Gold Bar shaft, on the 300 foot level, a raise was started to connect with the winze from the 200. This raise had advanced only four feet when it exposed the high grade ore, carrying a considerable amount of copper in addition to gold and silver and at a height of 12 feet the raise is all in ore that is apparently of high grade. This ore shoot has the boulders and nodules, embedded in talc and kaolin, that are characteristic of the richest ore found in the district, and at this point the ore is fully five feet wide.

MOOSE AND ELK TEAMS WILL MEET POSTPONED GAME

FRATERNAL TEAMS WILL CLASH FOR SUPREMACY ON DIAMOND TOMORROW.

Tomorrow afternoon the Elks and Moose baseball teams will meet on the diamond at Recreation park in the first of a series of games that will provide amusement for the fans this summer. This weather man's prediction for tomorrow is "fair," and should the prediction be correct the game will be held. Otherwise it will be postponed until the following Sunday.

It is the intention of local baseball enthusiasts to form two good ball teams in this city and to secure games with the Goldfield teams. On such occasions the best material could be picked from both organizations. The Moose team has been in the field for a month and has engaged in a number of winning contests. The Elk team was recently organized and the game tomorrow will be its first appearance. It embraces a number of former local stars in the lineup and can be depended upon to put up a good exhibition of the national pastime.

Carlos Fulwider of San Jose arrived in Tonopah this morning and will occupy the box for the Elks team. Fulwider is reckoned as one of the best pitchers in amateur baseball on the coast and for several years has played in various San Jose teams. He was accompanied by Walter Brown, who will play in the outfield. Both players intend locating in Tonopah and it was through the efforts of the Elks that they were induced to come to this section.

ENGINE LEAVES TRACK CAUSING LENGTHY DELAY

SOUTH BOUND TRAIN DOES NOT ARRIVE YESTERDAY UNTIL AFTER MIDNIGHT.

Train No. 24, scheduled to arrive in Tonopah yesterday morning, made its appearance at the T. & G. depot at 12:30 o'clock last night, being about 16 hours late. The south bound train this morning was also about two hours late.

The delay was caused yesterday by a cloudburst near Thorne washing sand upon the track. The engine was derailed and the passengers held until they could be transferred to train 23. All of the passengers were transferred and the train that left Tonopah in the morning returned here last night. Likewise the south-bound train returned to the north after the exchange had been made.
